We make pallet storage *simple!*

At Manby Storage Services Ltd, we excel in making pallet storage simple, secure and cost efficient.

HOW CAN WE HELP?

- **Competitive Storage Costs:** We understand the importance of cost efficiency in today's market. Our flexible storage options ensure that you only pay for the space you use, enabling you to manage your budget effectively and maintain a competitive pricing structure.
- **Streamlined Operations:** Our state of the art warehouse are designed to optimise pallet storage, allowing you to streamline your supply chain and reduce handling costs.
- **Scalability:** Whether you're a small startup or large business, our scalable pallet storage solutions can accommodate your growth. As your business expands, we can seamlessly adjust our services to meet your increasing storage needs.
- **Seasonal Flexibility:** For business with seasonal fluctuations, our pallet storage services offer the flexibility to scale your storage space up or down as needed. This prevents you from paying for unused space during slower seasons.
- **Reduced Overheads:** By outsourcing your storage needs to us, you can significantly reduce your warehousing and labour costs. This cost reduction can free up capital for other critical aspects of your business.
- **Nationwide Coverage:** While our main depot is located in Manby, Lincolnshire, we offer nationwide pallet storage solutions. No matter where your business is located across the country, you can take advantage of our services. We can arrange efficient transport from our Manby depot to your location, ensuring your pallets reach their destination reliably and on time.

Over

100,000sqft
of Warehousing available.

Circa

5,000
Racked Pallet locations.

Circa

5,000
Bulk Storage Pallet locations.
(120 Bays)

Customisable Space

Tailored Solutions

to accommodate your specific
storage requirements.

RACKED PALLET SPECIFICATIONS

- **Standard Pallets:** 1200 x 1000
or
Euro Pallets: 1200 x 800
- **Maximum Height:** 1.8m
(unless agreed otherwise)
- **Maximum Weight:** 1000kg per pallet

WAREHOUSE MANAGEMENT SYSTEM (WMS)

We use one of the latest software's available for warehouse management. All pallets that are stored with MSSL are labelled and scanned into our system, this ensure full traceability for the customer. Just some of the key data points we can capture through our WMS to help you manage your stock;

- **Part Number / Product Information**
- **Serial Numbers**
- **Batch Numbers**
- **Sell by Date**
- **Expiration Date**
- **Production Date**
- **Packaging Date**

OUR FACILITY

- **Excellent Access:** Convenient access via B1200 ensures easy entry and exit for deliveries and pickups.
- **CCTV:** We maintain a comprehensive CCTV coverage both internally and externally, offering round the clock monitoring for added security.
- **Pest Control:** We partner with Rentokil, a leading pest control provider, to keep our facility pest free.
- **Monitored Alarm System:** Our alarm systems are professionally monitored via AIM to swiftly respond to any security issues.
- **Well-Maintained:** Our facility is meticulously maintained to provide a clean and safe environment for your stock.
- **Ample Parking:** We offer ample parking space for your convenience during visits to our facility and HGV vehicles.
